<p>Action Energy – the Carbon Trust web tool for providing information on benchmarking energy use in offices</p>	<p>http://actionenergy.org.uk http://217.10.129.104/energy_benchmarking/Offices/default.asp</p>
<p>Carbon Trust is helping organisations to cut their energy bills and carbon emission with practical advice, free publications, interest free loans, and on-site surveys.</p> <p>Action Energy, a Carbon Trust programme, have produced a manual called Focus on energy: a practical introduction to reducing energy bills. It is divided into sections, each covering a single aspect of energy or utility use (lighting; heating; water; boilers; buildings; electrical equipment; compressed air; vehicles; buying; and management).</p> <p>They also publish a series of 'getting started' Factsheets on specific technologies and business sectors: Energy use in offices; and Renewable energy sources. Opportunities for businesses.</p>	<p>http://www.thecarbontrust.co.uk/energy</p>
